

# Geecom's Profile

# **GEECOMS INTEGRATED SERVICES LIMITED**

GEECOMS INTEGRATED SERVICES LIMITED – is an experienced and growing Project Management, Marine Services, Civil, Mechanical and Electrical & Pipelines Construction Company with an excellent track record in the oil and gas and industrial sectors of the Nigerian economy. We have a soaring reputation for professionalism and the maintenance of high job standard. We are ever guided by all relevant codes and standards internationally acclaimed for best quality in Construction and Engineering Works.

The company was registered on the 27th day of September 2006 under the Company and Allied Matters Act 1990 as a Nigerian Company with registration number RC668249.

We believe that quality comes from a combination of factors like Training, Experience, Commitment and good will. The high level of manpower we parade, the chain of challenging jobs of immediate past and our natural commitment and good will to give our best at all times puts us a rung above in qualitative Engineering Construction.

Over the years, the organization has developed tremendously, and built a considerable track record as one of the indigenous owned market leader in the provision of various engineering services in the Nigerian.

We begin with good planning and finish with individual and collective accountability to ensure that we give nothing short of unadulterated Engineering quality comparable to the best standards known.

**Safety is our priority**

We shall deliver world class Engineering/Construction Management Services at all times.

We shall use highly skilled and motivated team of employees as the engine of our success.

We shall provide timely services, pay attention to details and operate with integrity.

# IMS Objectives

IMS objectives are agreed yearly by the process owners to monitor and measure performance of the integrated management system. To achieve our IMS policy, we have set the following corporate objectives;

1. Work proactively with our existing customers and proactively attract new ones. We aim to increase our customer base from 7 to 15 by December 2016
2. Monitor customer perception/complaints, reacting within seven working days and ensure the number of customer complaints remain at an acceptable level
3. Prevent Pollution to air, land and sea in all our operational activities through aspect identification and implementation of adequate control measures
4. Maintain zero LTI and fatality in our operations
5. Identify and mitigate hazards that could cause injury/ill health to our employees and contractors
6. Through constant monitoring and effective root cause and corrective actions, reduce internal non-conformance for all processes, working towards an ultimate target of zero
7. Promote a culture of continual improvement for our staff to develop and maintain their professional skill
8. Ensure 95% of projects are completed within schedule

# Integrated management System Policy: Quality, Health, Safety and Environment

Geecom Integrated Services Limited is foremost business provider in the area of marine, Engineering, Pipelines, Construction, Equipment's Hires (both marine and land), and General contracts. We are committed to providing the highest possible standard and reliable services in these areas.

It is the policy of Geecom Integrated Services Limited to conduct all business activities in a responsible manner, which assures the quality of the product/services, health, safety and security of people/assets, preservation of the environment, and compliance with all applicable quality, health, safety, environmental, security, legal, and regulatory requirements in our operational areas.

This policy supports our strategic directions and addresses internal and external issues related to our services. To achieve this business ethic, we utilize an integrated Quality, Health, Safety and Environmental (QHSE) management systems that are designed to:

Provide a framework that will enable us comply with all applicable requirements; client, internal and regulatory requirements,

Assign clear roles and responsibilities regarding QHSE;

Identify, analyze and effectively manage all risk arising from Geecom Integrated Services Limited activities;

Provide systems of work, appropriate technology, tools, and procedures that meet appropriate performance standards;

Maintain a constant vigilance and readiness to prevent and where required, respond to and effectively manage emergencies;

Continually monitor and improve our integrated management systems and performance, including reducing and preventing and preventing pollution; prevention of injury/ill health and enhance customer satisfaction through an on-going review of our objectives, targets, metrics, system gaps, and implementation of proper corrective and preventive actions.

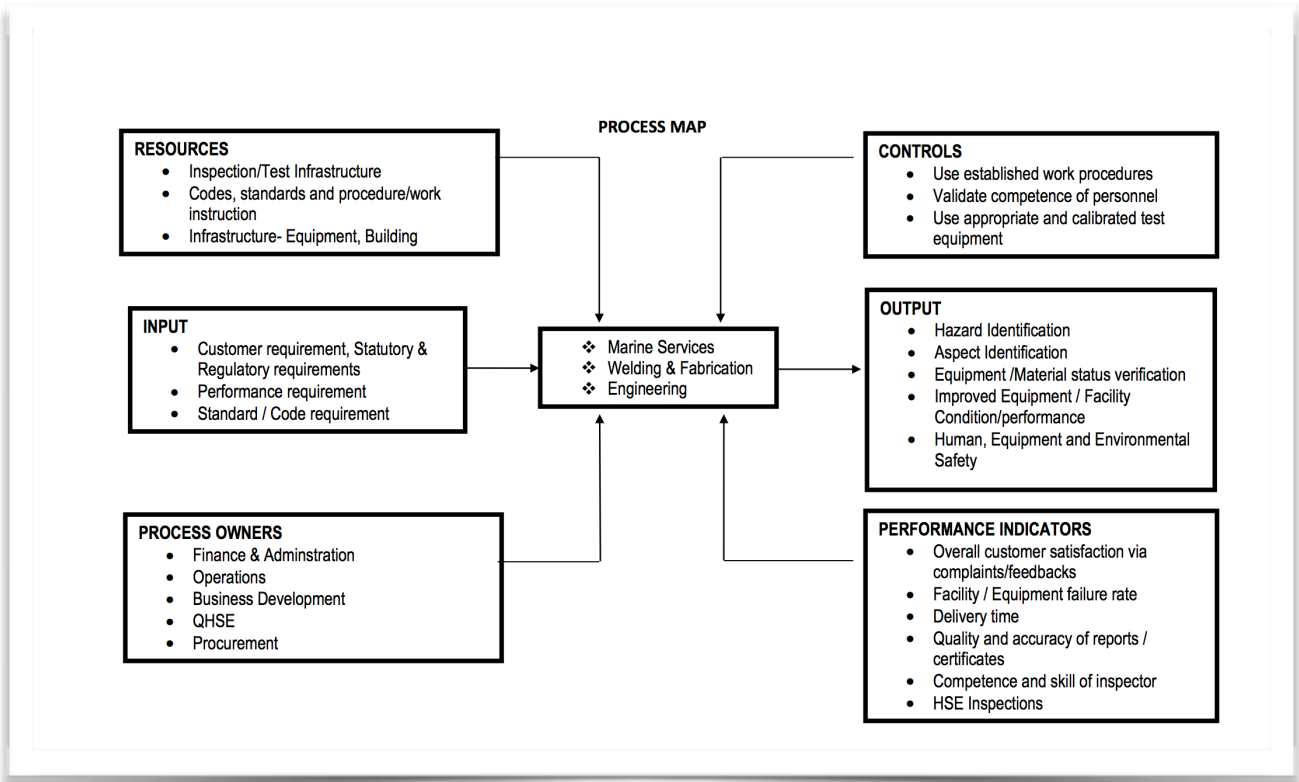

These will be the guiding principles in our execution philosophy, procedures and commercial agreements.

This policy is applicable to all projects, operations, subcontractors and Geecom Integrated Services Limited personnel. It is endorsed by Geecom Integrated Services Limited top management and made available to our relevant interested parties as appropriate.
